YOGESH CHAUDHARY

Full Stack Developer | Python & Backend Specialist

+977-9816288287 | yogeshchy635@gmail.com | Bara, Nepal

GitHub: yogesh007-chy | LinkedIn: yogesh-chaudhary

PROFESSIONAL SUMMARY

Full Stack Developer Intern candidate with hands-on experience building RESTful APIs, scalable backend systems, and web applications. Proficient in Python, Django, and Django REST Framework with a solid grasp of JavaScript, CRUD operations, OOP, and database design. Eager to expand into TypeScript and Next.js/Hono full-stack environments; quick learner with a passion for clean, maintainable code in collaborative startup cultures.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML, CSS
Backend: Django, Django REST Framework, RESTful API Design
Frontend: HTML5, CSS3, Bootstrap
Databases & ORM: PostgreSQL, Mongodb
Deployment & Tools: Git, GitHub, Render(learning), Postman, VS Code
Concepts: CRUD Operations, MVC Architecture, OOP, API Integration

PROJECTS

E-Commerce Web Application | *Personal Project* — 2025

- **Designed and built a full-stack e-commerce platform** using Django and PostgreSQL, managing the entire developer lifecycle from user authentication to final checkout and order fulfillment.
- **Integrated the Khalti Payment Gateway** to process secure digital transactions, implementing server-side verification logic to ensure reliable payment processing and data integrity.
- **Architected a modular and scalable codebase** using Django's MVT pattern and OOP principles, streamlining complex CRUD operations for product catalogs, user profiles, and transaction history.
- **Leveraged PostgreSQL and Django ORM** to design optimized database queries, ensuring high performance and efficient relational data management across the application.

E-Learning Platform | *Personal Project* — 2025

- Developed a robust system using **Python and Django** to manage hierarchical course delivery, interactive quiz evaluations, and automated student progress tracking.
- Designed a high-performance **PostgreSQL schema** and optimized complex **SQL queries** using advanced joins and indexing to maintain platform responsiveness at scale.
- Implemented the **Khalti Payment Gateway** for secure course transactions and integrated a **Kommunicate AI chatbot** to provide real-time technical support to learners.
- Leveraged the **Django Authentication System** to build secure **RESTful API endpoints** for enrollment, while streamlining onboarding with **Google OAuth2 (Social Login)** and custom user profiles.

EDUCATION

Bachelor of Science (BSc) — Running, 2nd Year | *Tri-Chandra Multiple Campus*
Expected Graduation: 2026

+2 Science | *Om National Academy, Birgunj* | GPA: 2.87

SEE | *Shree Nepal Rastriya Secondary School, Kalaiya* | GPA: 3.85

TRAINING & CERTIFICATIONS

Python with Django | *Sipalaya Infotech* — 2025

- Completed professional training covering Django Framework, REST API Development, Database Integration, and Real-World Project delivery.
- Gained practical experience shipping production-grade features — authentication, CRUD, API integration
